Copay Terms and Conditions

Only patients residing in the United States or its territories with valid commercial (private) insurance coverage for the product(s) are eligible for Curium's copay program.

Eligible patients may pay as little as \$0, subject to a maximum aggregate program benefit of \$20,000 per patient. Depending on each eligible patient's private insurance plan, amounts paid under this program may not count towards deductibles or out-of-pocket maximums.

By participating, the patient certifies that they are not enrolled in any federal or state healthcare program and will not seek reimbursement from any such program, including but not limited to Medicare, Medicaid, TRICARE, VA, and DoD.

Curium's copay program is also not valid: (i) for patients who are paying in cash or otherwise not using private insurance; (ii) for patients whose private insurance will pay for the full cost of the product(s) without patient cost-sharing; (iii) for patients with private insurance that does not cover the product(s); and (iv) for patients using other copay, discount, or patient assistance programs.

The program is intended solely to cover eligible out-of-pocket costs for the product(s) and otherwise has no cash value and may not be transferred. The program is subject to eligibility verification, and Curium reserves the right to rescind, revoke, or amend this program at any time without notice.

Patient information may be used to administer this program and to comply with applicable laws and regulations. This program may be administered by a third-party on behalf of Curium.
