

CURIUM CONNECTS™ OVERVIEW

Curium Connects integrates logistical, financial, and patient support to help patients and practices.

Provider Support

Access support

- Benefits verification
- Prior authorization
- Appeals and denials

Reimbursement support

- Billing and coding education
- Best practices when using the miscellaneous HCPCS codes (prior to a product-specific assignment)
- Tools and resources provided by a dedicated access and reimbursement team

Product ordering and logistics

- Access to centralized ordering portal
- Coordinated dose scheduling and delivery
- Real-time dose tracking
- Consistent calibration time
- Coordinated return program for pharmacy materials
- Lead container retrieval service

Patient Support*

Patient support hotline

- Fast answers and dedicated help from on-call nurses

In-home lab testing[†]

- Convenient in-home lab services for eligible patients, subject to program requirements

Travel and lodging assistance[†]

- Practical support for eligible patients

Patient copay savings^{††}

- Eligible commercially insured patients may pay as little as \$0 through the BEXLUTRY Copay Program

Financial assistance program

- Available for eligible patients who do not have insurance or who lack product coverage

Your dedicated Curium Representative can provide education and support for access- and reimbursement-related questions.

*Enrollment in Curium Connects is required to determine eligibility and participation. Offers subject to a maximum benefit per course of treatment.

[†]Please see terms and conditions for [in-home lab testing](#), [travel and lodging assistance](#), and [copay program](#).

^{††}Limitations apply. Valid only for those with commercial insurance. Not valid under Medicare or any other federal or state program.

Abbreviation: HCPCS, Healthcare Common Procedure Coding System.

CURIUM CONNECTS™ OVERVIEW

To begin ordering through CuriumConnects.com

- 1 Work with your Curium Representative to complete the onboarding process**
 - Make sure that your radioactive materials (RAM) licenses are up to date
- 2 Register yourself/your institution and your patients in the portal**
 - Review the User Guides and applicable resources located at CuriumConnects.com for more detailed information
- 3 Initiate an order for BEXLUTRY**
 - Select Patient Profile, and click on the Product Ordering tab
 - Schedule the infusion dates
 - Additional infusion dates will be auto-populated based on the 8-week interval
 - Receive order confirmation by email immediately after your order is placed
 - Track your delivery through the nuclear pharmacy and receive status updates through the Curium Connects portal
 - Contact Curium Connects about any unused doses, returns, or cancellations

Note: Orders can be updated at least 4 days before the scheduled infusion date and canceled for eligible issues prior to administration. After the 4-day cutoff, infusion date changes cannot be made through the portal. To make any order adjustments after that point, please contact Curium Connects directly.

Review the Product Ordering Guide located at CuriumConnects.com for more detailed information on how to complete and edit an order.

Ordering through our Curium Connects portal can help you

Plan treatments efficiently

- **Doses available within 4 days** through our nuclear pharmacy partners, including a prefilled syringe option
- **Real-time dose tracking** for predictable planning and on-time delivery
- **Flexible cancellations** to accommodate patient needs and minimize unused doses

Spend less time on logistics

- **Always non-carrier-added production** avoids $^{177\text{m}}\text{Lu}$ creation, helping alleviate waste management burden
- **Consistent calibration time** for reliable scheduling of BEXLUTRY
- **Coordinated return program** for pharmacy-dispensed materials, reducing staff time
- **Lead safe retrieval service** to minimize storage demands
- **Radioligand Clinical Specialists** can help ensure safe, efficient implementation and administration of BEXLUTRY
